Subject: Potential Molycorp NPL Proposal

Scott,

I just wanted to give you an update on the NPL process for Molycorp. At this time we are actively pursuing proposing this site to the NPL. We have completed a draft NPL package and are awaiting final acceptance from EPA headquarters. NMED is currently working on obtaining a letter of concurrence from their Governor. If everything goes well this site will be proposed in January 2000. The NPL update is scheduled for January 27, 2000. This is a tentative date. Please let me know what their permit status is and how listing will affect their status. I will keep you updated on the listing process. The following people comprise our team for this site.

Michael Boydston 7376 (legal)
LaDonna Walker 6666 (SAM)
Kathleen Aisling 2120 (RPM)
Brenda Cook 7436 (NPL)
Beverly Negri 8157 Community Involvement
Linda Rodriguez 2138 Community Involvement
NMED-Maura Hanning 505 827-2922
